Accent on... Personal Care

Over the years, AccentCare's compassionate CarePartners have been entrusted to provide non-medical care and assistance to thousands of clients who want to stay at home but just need a little extra help. Our goal is to enable clients to live an enriched, independent life in the comfort of their own home.

Our services begin with a **Comprehensive, Free In-Home Assessment** by one of our client care coordinators. Meeting with the client and their family allows us to make the very best recommendations from our list of available services. A customized care plan is developed from the start of care and is continuously reviewed to ensure you or your loved ones' needs are being met.

When you find yourself needing non-medical care, there are some things you just should not have to worry about, hiring a care giver is one of them.

AccentCare ensures consistency and quality in the care you receive, with the protection of a full service agency. AccentCare employs all of our CarePartners, and is responsible for:

- Payroll and Payroll Taxes
- Benefits
- Workers Compensation Insurance
- General and Professional Liability Insurance

All AccentCare employees must complete a rigorous screening process prior to employment to ensure you have the highest level of comfort with your CarePartner. Our hiring process includes:

- Criminal background check
- Professional reference checks
- Detailed Skills Exam
- TB Testing
